PROFILE

A skilled and motivated Full Stack Developer with 1+ year of experience in Development, seeking a challenging role in a dynamic organization. Committed to delivering high-quality software solutions, utilizing my strong technical skills and passion for innovation. Committed to delivering high-quality results and working collaboratively in a friendly and dynamic environment.

CERTIFICATES

Diploma in MEAN MERN Stack

FirstBit Solution, Pune

PROFESSIONAL EXPERIENCE

Unified Mentor

02/2024 – 06/2024

Web Development Intern

- Assisted in the development of responsive websites and web applications using HTML, CSS, JavaScript, and modern frameworks such as React.js and Node.js.
- Collaborated with senior developers in the implementation of front-end and back-end features, ensuring seamless integration and performance.
- Participated in code reviews, debugging, and optimization of existing applications to enhance performance and user experience.
- Integrated APIs and worked with databases like MongoDB and SQL to manage application data.
- Followed Agile methodology by participating in daily stand-ups, sprint planning, and task management using tools like Jira.
- Contributed to the design and development of modular, reusable code following best practices in web development and version control using Git.
- Ensured cross-browser compatibility and mobile responsiveness to enhance user experience across different devices.
- Assisted in testing and debugging tasks to identify and resolve issues before release.
- Developed basic documentation for features and updates to help maintain project organization.

Giesecke+Devrient MS India Pvt Ltd.

09/2022 – 11/2023

Junior Software Engineer

Pune, MH, India

- Implemented code to meet specific project requirements and deliver robust software solutions.
- Led the development of independent modules, managing integration and unit testing to ensure seamless functionality and stability across the system.
- Utilized Git and Bitbucket for version control, ensuring effective collaboration and efficient management of the codebase across multiple development teams.
- Worked closely with the team to ensure that the OS adhered to strict performance and security requirements, consistently delivering high-quality software.
- Actively participated in code reviews, debugging, and optimization efforts to enhance overall system functionality and performance.
- Contributed to the documentation and ongoing maintenance of the codebase using Confluence, ensuring clear, organized, and well-documented code for future development.

Bachelor of Technology Matoshri Pratishthan's School of Engineering, Nanded CGPA: 9.05/10 (First Class with Distinction)	2022
Diploma in Mechanical Engineering SSS'S Indira Institute Of Technology, (Polytechnic), Nanded Percentage: 68.29% (First Class)	2018
SSC Saraswati Vidyalaya, Malegaon Percentage: 74.80% (First Class)	2014

PROJECTS

Quiz Builder App – Quizzie

- **GitHub Link:** <https://github.com/Govindrajewar/Quizzie> 
- **Deployed Link:** <https://quizzie-blush.vercel.app> 

Technologies Used: React.js, Node.js, Express.js, MongoDB, CSS3

Description: A quiz builder app that allows users to create, share, and take quizzes. The app supports two types of quizzes: Q&A and Polls. Users need to log in to create and share quizzes, while anonymous users can attempt quizzes without logging in. Analytics track the number of impressions and highlight trending quizzes based on the number of times they are accessed.

Web Story Platform

GitHub Link: <https://github.com/Govindrajewar/WebStoryPlatform> 

Deployed Link: <https://web-story-platform-sigma.vercel.app/> 

Technologies Used: React.js, Node.js, Express.js, MongoDB, CSS3

Description: A WebStoryPlatform that allows users to view, like, share, and download stories. The platform offers a variety of categories like food, travel, and education, with filters for easy browsing. Logged-in users can add, edit, and bookmark stories, while unique like counts ensure an authentic engagement experience. Anonymous users can still filter and share stories. The app features a mobile-responsive design and handles backend filtering to enhance performance.

DECLARATION

Hereby, I declare that all the information given above is correct and true to the best of my knowledge.
